

ADITI BABEL

Clinical Genomics & Precision Medicine

Summary

Hi! I'm a junior doctor with an MSc in Genomic Medicine and a special interest in Global Health & Personalized Medicine. My work experience includes clinical placements, pharmaceutical / medical research internships, and student governance / marketing roles. I am interested in work within pharmaceutical and biotechnology industries – if there is a project I can help with, please get in touch.

Key Competencies

- Medical / Genomic knowledge
- Clinical / Research experience
- Writing and communications
- Creative problem-solving
- Cultural intelligence

Education

MBChB – Bachelor of Medicine, Bachelor of Surgery

2014 – 2020 at the University of Sheffield, U.K.

Recipient of the Undergraduate Merit Scholarship

Curriculum covers all aspects of clinical medicine/ practice within the UK's National Health Service including:

Anatomy • Pathophysiology • Pharmacology • Microbiology • Public Health • Clinical Skills • Medical Examinations • etc.

MSc Genomic Medicine [Intercalation]

2017 – 2018 at the University of Sheffield, U.K.

Graduated with Honors (Merit).

Modules: Genomics of inherited and infectious diseases • Molecular pathology of cancer • Omic techniques • Bioinformatics • Pharmacogenomics • Stratified healthcare • Ethico-legal applications to genomic medicine.

Dissertation:

Establishing genes differentially expressed in lymphoblastoid cell lines from slow- and fast- progressing ALS patients.

Work Experience

JUNIOR DOCTOR – NHS Teaching Hospitals – Yorkshire, U.K. – Current

- Foundation Year 1 Doctor in Geriatrics at Leeds Teaching Hospitals (current)
- Interim Foundation Year 1 Doctor in General Medicine at Barnsley District General Hospital (May – July 2020)

MEDICAL INTERN – Pfizer HQ (Walton Oaks) – London, U.K. – June 2019

- Worked within a Medical Affairs team (Essential Health: UpJohn division) with 2 Medical Affairs Executives.
- Produced clinical research summaries to inform market strategy for non-communicable disease therapies.
- Also: synthesized grant proposals and feedback and prepared presentations for other Pfizer operational divisions.
- Initiated a literature review examining the use of AI strategies in optimizing medication adherence (ongoing).

RESEARCH INTERN – Simcyp, Certara – Sheffield, U.K. – March 2017

- Integrated and processed literature values of gastric emptying rates and its impact on drug absorption.
- Generated an extensive dataset of gastric emptying rates in a Japanese population for further interpretation.
- Worked on Simcyp's Physiologically-based Pharmacokinetic (PBPK) modeling software to optimize outcome reliability.

RESEARCH INTERN – The Royal Hallamshire Hospital - Sheffield, U.K. – August 2015

- Retrospective study of 40 pulmonary arterial hypertension (PAH) patients supervised by Dr. Andrew J Swift.
- Evaluated link between change in RAC (relative area change) of pulmonary artery (PA) and PAH progression using PA segmentation from MRI scans & investigated the reliability/ reproducibility of PA segmentation to predict mean pulmonary arterial pressure (mPAP) values as a potential diagnostic tool for pulmonary arterial hypertension.

Other Activities

MEMBER OF THE NAFA RESEARCH TEAM –South Yorkshire Surgical Research Group – Sheffield, U.K. – Sept 2018 – Jan 2020

- Conducted a systematic review to evaluate functional outcomes following operative and non-operative interventions in the management of Weber C ankle fractures.
- Poster presented at the ASiT International Conference 2019.
- Article published in the Journal of Foot & Ankle Surgery in Jan 2020.

<https://doi.org/10.1053/j.jfas.2019.06.005>

NORTHERN REGIONAL COORDINATOR - Students for Global Health (SFGH) – U.K. – Apr 2018 – August 2019

- Overall management of 8 branches including Lancaster, Leeds, Liverpool, Newcastle, Sheffield, and Hull-York.
- Facilitate inter-branch communications, administer branch training, represent Northern branches within the SFGH National Committee, and heavily contribute to the SFGH long-term development plan and national operations.

FREELANCE WRITER – Sheffield, U.K. – Current

COMMISSIONED ARTICLES:

- 2020 – Staff Writer for the Festival of Genomics by Front Line Genomics: Speaker Interviews (unpublished).
- 2019 – *Ascent Magazine* (Feb 2019) by Shanghai American School: “More than just a Doctor”.
- 2019 – International Baccalaureate Community Blog: “Vulnerability is Brave and Beautiful”.
- 2018 – Medic Mentor Magazine (Issue 6): “Why I Changed My Mind: Student”.
- 2016 – Student Job Blog: “Being an innocent Brand Ambassador”.

PUBLISHED BOOKS:

- Poetry memoir titled *Unsettled* – available on Amazon.

PROMOTIONAL STAFF, ENGAGEMENT MARKETING – Various – Sheffield, U.K. – Current

- **Missguided (2019):** Worked alongside the client and a team of 15 full-time marketing staff to deliver a multi-city coordinated campaign with a free-burger van and pop-up clothes shop to increase brand awareness on campus.
- **Typo (2018):** Part of a 4-person student team to increase brand awareness on campus and maximize social reach amongst students by encouraging engagement with a branded photo booth, achieved over 85 social media uploads.
- **ASOS (2016):** Part of a 5-person student team to obtain ASOS sign-ups at a promotional event on campus—increased brand awareness by distributing personalized merchandise and achieved 1,551 new sign-ups.

STUDENT BRAND MANAGER & MARKETING INTERN – Innocent Drinks – Sheffield & London, U.K. – 2015-18

- Event planning and networking with influencers and store managers to increase brand presence on campus.
- Digital and social media marketing using the *innocent* brand voice to promote the brand to students.
- Managing brand expectations and positioning to maximize brand value and increase sales.
